

NORTH CENTRAL

April Status Report

REGIONAL COORDINATOR: ANDREA BENNETT

ACH CERTIFICATION PHASE 1

OVERALL

HIGHLIGHTS & CHALLENGES

Strong provider engagement from local hospitals, provider networks, and FQHCs. Received input from large listserve on project selection. Moving toward fully integrated managed care in three counties in 2018. Challenges: Tribal engagement, and limited crisis stabilization beds.

PRIORITY TA NEEDS

Coalition for Health Improvement model charters. Tribal engagement. Model decision making flow charts. Sample job descriptions. Planning for data sharing agreement and ongoing data capacity. Review of conflict of interest policy.

ISSUES FOR ESCALATION

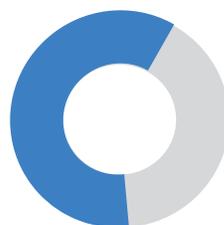

Information on expectations of data sharing agreement. More information on tribal engagement including model tribal policy. Clarification on project reweighting. Information on allowable uses for fully integrated managed care incentive funding and certification funding.

CLINICAL CAPACITY

ACH MEETINGS

- April 20: TA Kickoff
- April 26: Board Retreat

MILESTONES

- Adopted bylaws
- State-approved non-profit corporation
- Whole Person Care Collaborative and Fully Integrated Managed Care workgroup
- Completed community needs assessment

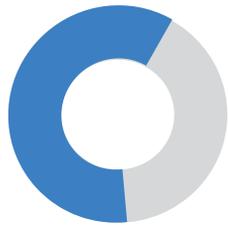

NEXT STEPS

- May 1: Board Meeting
- May 2: Work Session
- Adopt vision statement
- Formalize decision making authority of Coalitions for Health Improvement
- Launch new user-friendly website
- Adopt conflict of interest policy
- Continue outreach to tribes
- Begin drafting Certification documents

THEORY OF ACTION & ALIGNMENT

NCACH strives to build capacity in the community and does not want to build an ACH empire. Strong alignment of work of ACH with community needs based on data from community needs assessment discussed at recent board governance meetings.

GOVERNANCE & ORG STRUCTURE

Formalized board with bylaws. Need to fill open board seats and formalize decision-making authority of community members and consumers.

TRIBAL ENGAGEMENT & COLLABORATION

Pursuing conversations with a couple of trusted individuals but slow process.

STAKEHOLDER ENGAGEMENT

Planning to formalize Coalitions for Health Improvement and engage them in decision-making. Launching new website during summer of 2017. Need to engage consumers.

BUDGET & FUNDS FLOW

Formalized agreement with Chelan-Douglas Health Department to serve as backbone for 15% indirect costs. Needs to be converted into a legal contract to reflect incorporation. This includes space, internet, furniture and finance structures. Eager for guidance on project funding allocation methodology.

CLINICAL CAPACITY

Diverse group of providers engaged in Whole Person Care Collaborative and Fully Integrated Managed Care workgroup based on initial phone conversation, kick-off meeting, and review of charters. Working with providers to plan transition to Value Based Payment models.
