Meeting called to order at 12:30 PM by Barry Kling

Conflict of Interest: Barry disclosed conflict of interest with regards to the CDHD hosting agreement.

Approval of minutes: Motion to approve the August minutes by Time Hoekstra, seconded by Kevin Abel, no further discussion, motion passed.

Public Comment: No public comment

Treasurers Report: Sheila is working with Kandis Boersema from the Chelan-Douglas Health District to develop a format for the financial report that will be easier to follow. SIM grant is expected to continue another year, but we will need to start using the demonstration funds for expenditures that are currently being paid out of the SIM budget soon. Jesus Hernandez moved to approve the July 31st expenditures, Nancy Nash-Mendez seconded the motion, no further discussion, motion passed.

Executive Director Update see newsletter that was emailed prior to meeting.

- Hosting Agreement: Linda explained that the Board of Health requested a few minor changes in the CDHD/NCACH hosting agreement. The NCACH Board as well as the NCACH attorney has reviewed these changes. Doug Wilson moved to approve the revised CDHD/NCACH hosting agreement, Senator Warnick seconded the motion, no further discussion, motion passed.

- Staffing: Request for new staff person for “Community Engagement / Project Support”. This was discussed in detail at the Board Retreat on Friday 9/8/17. The NCACH Staff provided detailed information on the need for an additional person and a comparison to other ACH’s across the state. We are still very lean and plan to stay that way. Nancy Nash-Mendez moved to approve the addition of a new staff person, Jesus Hernandez seconded the motion, no further discussion, motion passed.

Nomination of Board Member:

- Mike Beaver – Okanogan County Coalition for Health Improvement.

  Jesus Hernandez moved to nominate Mike Beaver for the Okanogan CHI Seat, Winnie Adams seconded, clarified that this was a countywide recommendation, no further discussion, motion passed.
NPIP Insurance Resolution – John Schapman:
• Board would like to view the membership agreement for more information and clarification
• Board members on the phone did not have the document to review
• Add a number to the resolution
Jesus Hernandez moved to approve the resolution with the option of changing after the board has reviewed in more detail, Rick Hourigan seconded the motion, Brooklyn Holton abstained, no further discussion, motion passed.
  ➢ Teresa will email more information to the board and will put back on the agenda for October to see if all members are still in agreement.

Certification Update – John Schapman: Certification Phase two has been submitted and we are expecting the scoring by the end of the month. Christine Quinata from HCA shared that HCA has finished scoring and hoping to have final results out soon.

Whole Person Care Collaborative – Peter Morgan:
• The collaborative is recommending the charter for approval by the NCACH Board with the condition that we add wording to page 2 “including but not limited to” (re: members who are active partners in Demonstration) Jesus Hernandez moved to approve the WPCC Charter with the addition of the above wording on page 2, Doug Wilson seconded the motion, no further discussion, motion passed.
• CCM/CSI Solutions agreement: Peter explained the different phases for the contract, WPPC said that they would like to clarify the commitment and get a discussion going with CCMI / CSI to discuss the design phase. No action is required at this time, but there may be a request for funding in October. Molly noted that this group has worked with Indian Health Services in the past. Peter said the references have been stellar.

BHO Update Tamara Burns:
• Continuing to work on closeout timeline and that is updated monthly.
• Will be inventorying the office and submitting to the state this week, still have all 10 staff.
• Parkside: Negotiating the operational contract. 16 triage - crisis stabilization beds and 16 residential beds.

FiMC Report – Christal Eshelman (full written report is in the September newsletter)
• Had a meeting with the Okanogan County Commissioners this morning. They are still considering becoming mid-adopters in January 2019.
• Early Warning System Indicators will be presented to the FiMC Advisory Council on September 20th for approval then will be brought to the NCACH Governing Board for approval in October. There will be a short presentation on the Early Warning System at the October board meeting and a more in depth presentation at the 9/20/17 FiMC Advisory Board Meeting.
• HCA has signed a contract with the contractor XPIO to provide technical assistance to the five behavioral health providers in our region. This work will start this month.

Pathways Community HUB: Trying to get an initial contract in place with CCS to get the HUB in a box. With 8 out of the 9 ACH’s choosing the Pathways HUB, the company has paused the process to come up with a plan to handle all of the ACH’s at the same time. In the meantime, the NCACH staff would like to access the care coordination resources in the region and develop an RFP Process to identify an organization that can operate the HUB.
  ➢ Doug: What happens if nobody answers the RFP? We would have to discuss and find a solution.
  ➢ Laurel: Will MCO’s be involved? After the initial tasks have been taken care of, a broader workgroup will be formed.
Doug Wilson moved to create a temporary subcommittee of the Governing Board to begin laying the groundwork for a Pathways HUB by 1) working with NCACH staff to initiate a regional care coordination resource assessment, and 2) by
developing an RFP process for selection of a HUB organization once additional information is available. Member of the subcommittee will consist of volunteers from the Governing Board. A broader workgroup including ACH partners will be developed after addressing these initial tasks. Nancy Nash-Mendez seconded the motion, no further discussion, motion passed.

**Opioid Workgroup Charter – Christal Eshelman:** We presented the charter at the board retreat and are continuing to work on it. Will make all charters more consistent. The Opioid Charter is expected to be on the October Board meeting agenda for approval at the October meeting.

**Transitions & Diversions Workgroup Charter – John Schapman:** Discussion at the board retreat was to keep this as one workgroup for now, may separate after the projects have started. Will be a region wide group using the CHI’s for local input. Charter will be presented at October meeting.

- Doug: How much info are you going to need from the workgroups? We need to have an evidence based approach and a target population. Then we will use the group more for the June 2018 deadline.

**Announcement:** Laurel Lee from Molina noted that the MCO’s and Beacon will be hosting provider symposiums in both Chelan-Douglas October 9th and 10th and Grant County October 11th & 12th, a save the date will coming.

**Meeting adjourned at 2:05 PM by Barry Kling**

**Action Items:**

- Email out the NPIP Insurance information to board, add to October agenda
- John – Add resolution number to the NPIP Insurance Resolution
- Board – Create a temporary Subcommittee for Pathways HUB

The Board Members and few others went to the local Indian Health Center. The staff and Molly Morris gave an educational presentation on the Tribal Health System.

**Next Meeting:** October 2nd, 2017 12:30 PM – 3:00 PM
A RESOLUTION REGARDING MEMBERSHIP IN THE NON PROFIT INSURANCE PROGRAM

RECITALS:

1. Per the Membership Agreement of the Non Profit Insurance Program (NPIP), members can jointly pool and self-insure their liability losses and claims, jointly purchase property and liability insurance and reinsurance, and jointly provide for related administrative, risk control, and other services.

2. We have been provided with an opportunity to review the Membership Agreement of NPIP, available at www.npip.org.

3. We find that membership in NPIP is in the best interest and general welfare of my nonprofit in managing the risks involved in providing services.

IT IS RESOLVED:

1. The Board of Directors hereby approve the Membership Agreement of the Non Profit Insurance Program and hereby agrees to become a member of NPIP commencing the date insurance coverage is bound.

2. The Chairman and Vice-Chairman are authorized to execute all documents necessary to accomplish the purposes and intent of this Resolution.

ADOPTED BY THE BOARD OF DIRECTORS OF ________________________________

NON PROFIT INSURANCE PROGRAM
MEMBERSHIP AGREEMENT

1. Introduction. THIS AGREEMENT is made and entered into pursuant to the provisions of Revised Code of Washington (RCW) by and among the Washington nonprofit corporations listed in Exhibit A attached hereto, as the same will be amended regularly (collectively, the "Members").

2. Recitals.

2.1 Revised Code of Washington provides that two or more eligible entities may, pursuant to state law, coordinate the purchase of insurance and related services (these activities are hereafter collectively referred to as a "Joint Insurance Purchasing Program").

2.2 Revised Code of Washington defines eligible entities to include a nonprofit corporation organized under the entity's state of domicile.

2.3 It is to the mutual benefit of the Members to join together to establish this Joint Insurance Purchasing Program to accomplish the purpose set forth herein.

2.4 The Members have determined it is in their best interest to participate in such a program.

3. Agreement. In consideration of the foregoing recitals and the mutual benefits to be derived herefrom, the Members agree as follows:

3.1 Purpose of Agreement. This Agreement is entered into by the Members pursuant to Revised Code of Washington for the purpose of authorizing the creation and maintenance of a nonprofit corporation pursuant to the provisions of RCW Chapter 24.03 to be known as the Non Profit Insurance Program ("NPIP"). NPIP is organized for the purpose of coordinating insurance and related services, to the extent permitted by law, for the benefit of its Members.

3.2 Parties to Agreement.

3.2.1 Members. Each party to this Agreement certifies that it intends to contract with all parties who are signatories of this Agreement on its effective date and with such other parties as may later be added to and become signatories to this Agreement pursuant to this agreement. Each party to this Agreement also certifies that the withdrawal or cancellation of any party to this Agreement, pursuant to this agreement shall not affect this Agreement or the remaining Members' intent to contract with the remaining Members pursuant to the terms of this Agreement with the then remaining parties to this Agreement.

3.2.2 Types of Membership. Members shall be made up of nonprofit corporations who meet the Membership criteria as set forth in this Agreement and by the NPIP Board of Directors. Members of NPIP are listed on Exhibit A.

3.3 Term of Agreement. This Agreement shall become effective upon signature, and shall remain in force, until terminated pursuant to the provisions of this Agreement.

Revised 8/29/16
Page 4 of 11
3.4 Creation of NPIP.

3.4.1 Pursuant to Chapter 48.62 Revised Code of Washington, the Members authorized the formation of NPIP, pursuant to the provisions of RCW Chapter 24.03 and the Articles of Incorporation. The regulation and management of the affairs of NPIP are governed by this Agreement, and corporate Bylaws, which have been adopted NPIP's Board of Directors. NPIP's Articles of Incorporation and Bylaws may be amended as deemed necessary by the Members and the NPIP Board of Directors, by their own terms and subject to the requirements of Washington law.

3.4.2 Notwithstanding the foregoing, the NPIP Board of Directors shall have no power or authority to incur any obligations on the part of, or to be chargeable to, Members in excess of the requirement of each Member to compensate the Program or the insurance carrier with whom NPIP has purchased insurance pursuant to this Agreement, for the individual Member's share or obligation for the purchase of insurance contemplated and authorized by this Agreement.

3.4.3 The insurance afforded to each Member, pursuant to this Agreement, is limited to the insurance provided by any insurer of NPIP and the coverages defined in the policies of insurance issued by any insurer of NPIP. No coverage, benefit or insurance, in excess or different from that afforded by any insurer of NPIP, is offered or afforded to any Member by execution of this Agreement. NPIP may extend coverage beyond that provided by its excess or reinsurance partners, but only by express written agreement with the Member.

3.5 Powers of NPIP. The Members hereby delegate to NPIP the powers which are common to the Members and which are reasonably necessary and proper to carry out the purposes and terms of this Agreement. Such powers shall include, but not be limited to, the power to:

3.5.1 Establish, and require compliance with, all terms of the Joint Insurance Purchasing Program to be provided by NPIP including the types and limits of the insurance coverage, the methodology to be used to allocate NPIP's costs among Members, and the amount of assessments to be paid by each Member;

3.5.2 Make and enter into contracts;

3.5.3 Incur debts, liabilities or obligations;

3.5.4 Acquire, receive, hold or dispose of property, funds, services, and other forms of assistance from persons, firms, corporations and governmental entities;

3.5.5 Sue and be sued, complain and defend, in its corporate name;

3.5.6 Hire employees and agents; and

3.5.7 Employ a third party administrator to act in accordance with Section 3.8. The authority of...
NPIP’s Board of Directors shall be exercised pursuant to the terms of this Agreement and NPIP’s Articles of Incorporation and Bylaws and in the manner provided by RCW Chapter 24.03.

3.6 Responsibilities of NPIP. NPIP shall have the following responsibilities:

3.6.1 Annually, prior to the fiscal year, the NPIP Board of Directors shall adopt a budget. Such budget shall determine the insurance coverage to be provided through NPIP, the estimated annual assessment to be paid by each Member, and the methodology to be used to allocate NPIP’s costs, including deductible costs, administrative costs, and loss costs, to each Member on an annual basis.

3.6.2 NPIP will assist each Member’s risk manager, upon request, with the implementation of risk management programs.

3.6.3 NPIP will provide loss prevention, safety, and consulting services to Members.

3.6.4 NPIP will provide claims adjusting and subrogation services for claims covered by the Joint Insurance Purchasing Program.

3.6.5 NPIP will provide loss analysis for the Members for the purpose of identifying high exposure operations and evaluating proper levels of self-retention and deductibles.

3.6.6 NPIP will conduct risk management audits to assess each Member’s participation in the Joint Insurance Purchasing Program.

3.6.7 NPIP will comply with any other requirements imposed by Washington law.

3.7 Responsibilities of Members. Members shall have the following responsibilities:

3.7.1 Each Member shall appoint one representative who shall be authorized to exercise the Member’s voting rights in NPIP, if any, and to act on behalf of the Member with respect to all matters pertaining to NPIP. Only directors, officers and employees of a Member shall be eligible to be appointed as a representative of a Member. The name of the person appointed as a Member’s representative shall be submitted to NPIP directly or via the Member’s agent/broker via mail, email, or application. A change in a Member’s appointed representative shall not become effective until NPIP has received notice of such change. The alternate Member representative indicated on the renewal application will be used, if necessary, serve and act in the absence of the Member’s representative.

3.7.2 Each Member shall maintain its own set of records, as a loss log, on all categories of loss and shall provide to NPIP a written report to all potential claims or losses within 48 hours after they become known to the Member.

3.7.3 Each Member shall pay to NPIP, when due, all assessments established by NPIP, pursuant
to the terms of this Agreement. After the withdrawal, cancellation, or termination of a Member, such Member shall continue to pay to NPIP, when due, until all claims, losses, costs, and other unpaid liabilities relating to the Member's period of membership have been resolved fully.

3.7.4 Each Member shall provide NPIP with such information or assistance as may be necessary for NPIP to carry out the Joint Insurance Purchasing Program.

3.7.5 Each Member shall comply with all Bylaws, resolutions, and policies adopted by the NPIP Board of Directors and shall cooperate with NPIP and its insurers in accomplishing the purposes of this Agreement.

3.8 NPIP Board of Directors' Authority.

3.8.1 NPIP shall be governed by a Board of Directors in accordance with the Bylaws.

3.8.2 The Third Party Administrator ("Administrator") shall have the general supervisory control over the day to day decisions and administrative activities of NPIP. Activities shall include, but are not limited to: (1) negotiations and placement for insurance coverage contracts; (2) disbursement billings to individual Members for their proportionate charges; (3) payment and management of claims sustained by Members of NPIP and liaison with representatives acting on behalf of participating Members. The Administrator shall also keep records of expenses and claims data.

3.8.3 Administrative costs and charges to be paid to the Administrator shall be negotiated between the NPIP Board of Directors and the Administrator.

3.8.4 NPIP funds shall be administered by the Administrator under the control and supervision of the NPIP Board of Directors. The Administrator will be authorized to disburse funds for the processing of covered claims and administrative costs.

3.8.5 The NPIP Board of Directors will provide for an annual audit of the books and records of NPIP as proscribed by the laws and regulations of the State of Washington. When such an audit of the accounts and records is made by the auditing agency, a report thereof shall be filed as a record with the office of the Administrator. Such reports shall be conducted, distributed, and/or filed as required by law. Costs of this audit shall be borne by NPIP and shall be considered for budgetary purposes.

3.8.6 The NPIP Board of Directors is authorized to invest NPIP assets pursuant to the laws and regulations of the State of Washington.

3.8.7 The NPIP Board of Directors shall establish an annual budget. Fiscal years for NPIP shall be from June 1 through May 31 of the next calendar year. The NPIP Board of Directors shall determine the estimated expenses and costs to be incurred by NPIP for the next fiscal year and shall adopt a budget derived from the Administrator's proposed budget. The budget shall be in a form to provide the following information for NPIP as a whole: (1) additional funds toward unreserved fund balance; (2) anticipated revenues in detail; and (3) appropriations, in detail. The NPIP Board of Directors shall apportion the budget costs among the Members, based on rating.
factors. All payments due NPIP from Members upon the basis of each budgeted assessment shall be paid as invoiced for the fiscal year for which the assessment is made.

3.9 Service Representative Relationship (Agent/Broker).

3.9.1 Each participating Member of NPIP shall designate a servicing representative to act on their behalf. All service representatives shall be licensed insurance brokers. Duties will include, but are not limited to, the providing of local claims assistance, the securing of underwriting information, completion of applications, updating exposure data and information and such other functions as necessary and reasonable.

3.9.2 Each Member agrees to indemnify and hold NPIP, its Administrator, employees and agents, harmless from and indemnify them against any claims, complaints, and causes of action or judgments arising from any allegation of a failure of the performance or negligence on the part of the Member’s servicing representative, including a failure to communicate to or forward communications from NPIP, NPIP’s Administrator or any Program insurer. The employment of a servicing representative and the scope of the services performed by that representative are completely within the domain of the Member. A Member acts upon the advice and actions or inactions of its servicing representative at its sole risk.

3.10 New Members. New Members may be admitted as Members of NPIP, to the extent permitted by law, and subject to the conditions set forth by the NPIP Board of Directors.

3.11 Withdrawal. A Member may withdraw only at the end of NPIP’s fiscal year and only after it has given the Program ninety days (90) written notice of its intent to withdraw from this Agreement.

3.12 Cancellation. NPIP shall have the right to cancel any Member’s participation in the Joint Insurance Purchasing Program upon the affirmative vote of the NPIP Board of Directors at any regular or special meeting. Any Member so cancelled shall be given 90 days notice prior to the effective date of the cancellation, unless due to nonpayment or noncompliance within Section 3.7 of this agreement. Notice of cancellation shall be no less than 10 days.

3.13 Effect of Withdrawal or Cancellation. Neither the withdrawal nor the cancellation of any Member shall cause the termination of this Agreement. No Member, by withdrawing or having its membership canceled, is entitled to payment or return of any assessment paid by the Member to NPIP or any NPIP insurer, or to any distribution of NPIP’s assets. The withdrawal or cancellation of any Member, shall not terminate its responsibility to contribute its share of any assessments per this Agreement. It is the intent of this Agreement that no assets of NPIP shall be owned by Members nor shall Members be responsible for debts incurred by the NPIP other than insurance premiums, assessments and claim deductibles attributed to the Members’ membership.

3.14 Termination and Distribution.

3.14.1 Termination. This Agreement may be terminated at any time by the written consent of

Revised 8/29/16
Page 8 of 11
three-fourths of the Members. However, this Agreement and NPIP shall continue to exist for the purpose of paying all debts and liabilities, disposing of all claims, distributing net assets, and liquidating the affairs of NPIP in accordance, with Washington law. The NPIP Board of Directors shall continue to have the authority to administer the Joint Insurance Purchasing Program, including the power to require Members, including those Members which withdrew prior to the termination date, to pay any assessments deemed necessary by the Board of Directors to fully resolve and dispose of all claims, losses and liabilities covered by this Agreement.

3.14.2 Distribution. Upon termination of this Agreement and full satisfaction of all outstanding claims, losses, and liabilities of NPIP, all assets of NPIP shall be distributed among the Members that were Members of the Joint Insurance Purchasing Program, on the date action to terminate this Agreement was taken, in proportion to the cash payments made by each Member during the term of this Agreement. The NPIP Board of Directors shall determine such distribution within six months after the last pending claim or loss covered by this Agreement has been resolved fully.

3.15 Notices. Except as otherwise required by Washington law, notices to Members hereunder shall be sufficient if: via service representative, via email, or via mail, to the office of the last known address of the Member.

3.16 Amendment. This Agreement may be amended at any time by the approval by an affirmative vote of a majority of the NPIP Board of Directors of the program during a regular or special meeting of the Board of Directors.

The Board of Directors shall provide notification of the intent to change the foundation agreement to each member of the program at least 30 days in advance of the meeting in which the vote of the board will occur, or pursuant to state law, whichever notice is greater. Notice must be provided via electronic or regular mail and must provide a copy of proposed changes.

All amendments shall be adopted with the governing body of each member and signed by an authorized representative of each member. The signed amendment will be submitted to, and retained by NPIP. Copies of the foundation agreement and subsequent amendments shall be published on the website of the program, per applicable state law.

3.17 Voting Rights and Procedures. Each Member shall be entitled to one vote on each matter submitted to a vote of the Members on the date the vote is taken, unless a record date for voting purposes is fixed by the Board of Directors. Members present on the day of the meeting of the membership shall be entitled to vote at such meeting per state law.

The vote may be taken by mail or by electronic transmission (if the name of each candidate and the text of each proposal to be voted upon are set forth in a record accompanying or contained in the notice of meeting). An election may be conducted by electronic transmission if NPIP has designated an address, location, or system to which the ballot may be electronically transmitted and the ballot is electronically transmitted to the designated address, location, or system, in an executed electronically transmitted record. Members voting by mail or electronic transmission are present for all purposes.
3.18 Authority. NPIP is hereby granted the authority to enforce the terms of this Agreement. In the event action is instituted to enforce any term of this Agreement or any term of the Bylaws against any Member or previous Member, the Member or previous Member agrees to pay such sums as the court may fix as reasonable attorneys’ fees and costs in said action including fees and costs on appeal.

3.19 Default and Remedies. If any Member fails to perform any term or condition of this Agreement and such failure continues after NPIP has given the Member written notice of such failure, the Member shall be in default hereunder. Upon default, NPIP may cancel the Member’s membership effective immediately without further notice or exercise any remedies herein provided or otherwise provided by law. The rights and remedies of NPIP are cumulative in nature and pursuit of any particular remedy shall not be deemed an election of remedies or a waiver of any other remedies available hereunder or otherwise available by law.

3.20 No Waivers. No waiver or forbearance of a breach of any covenant, term, or condition of this Agreement shall be construed to be a waiver or forbearance of any other or subsequent breach of the same or of any other covenant, term or condition, and the acceptance of any performance hereunder, or the payment of any sum of money after the same has become due or at a time when any other default exists hereunder, shall not constitute waiver of the right to demand payment of all other sums owing or a waiver of any other default then or thereafter existing.

3.21 Prohibition Against Assignment. No Member may assign any right, claim or interest it may have under this Agreement. No creditor, assignee or third party beneficiary of any Member shall have any right, claim or title to any part, share, interest, fund premium or asset of NPIP.

3.22 Entire Agreement. This Agreement contains the entire understanding of the parties regarding the Joint Insurance Purchasing Program, and they acknowledge that there is no other written or oral understanding or promise between them with respect to the matters addressed by this Agreement except for the Articles of Incorporation and Bylaws of NPIP. This Agreement may not be altered, amended, or revoked, except pursuant to this Agreement.

3.23 Severability. If any term or provision of this Agreement shall to any extent be determined by a court of competent jurisdiction to be invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each term and provision in this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

3.24 Time. Time is of the essence of this Agreement and each and every provision hereof.

3.25 Section Headings. The section headings in this Agreement are inserted for convenience only and are not intended to be used in the interpretation of the contents of the sections they introduce.

3.26 Governing Law. This Agreement shall be governed by and construed in accordance with the laws of NPIP’s domicile - the state of Washington.
4. Execution. The parties have executed this Agreement by duly authorized officers thereof as of date coverage was bound in NPIP.

Coverage Confirmation

The terms, conditions, and exclusions shown here are brief overviews included in, but not limited to, the coverages provided by the Non Profit Insurance Program. The terms and conditions offered may differ from your prior policy and from what you requested in your submission. This document is not intended to be used as a direct reflection of all coverages or to replace or alter the policies in any way. Information represented in this Coverage Confirmation is subject to the exclusions, terms, limitations, and conditions of the policy insuring the Non Profit Insurance Program. All specific coverage, exclusion, and limitation questions should be referred directly to the policies and all attached endorsements. In the event of differences, the policy will prevail. Participating companies are non-admitted, unless otherwise stated. Non-admitted companies are not regulated by the Washington State Insurance Commissioner and are not protected by the Washington State Guaranty Fund. Clear Risk Solutions will process all surplus lines filings on any excess and surplus lines policies, if applicable, on behalf of NPIP. The Policy is subject to audit. Defense costs are outside the limits for nonprofit members and inside the limits for independent schools. For claims made coverages, Extended Reporting Periods are available upon request (information regarding basic ERPs is available in the policy).

Please note the limits shown here represent the combined full limits provided by multiple policies from various carriers. It is the responsibility of the broker to review this document to confirm its accuracy.

Notice of Cancellation for Non-Payment
We may cancel this policy within 10 days in the event of non-payment of premium. Notice of cancellation will be mailed to the Named Insured’s last known address and will indicate the date on which coverage is terminated. A copy will be mailed to the broker of record on file.

PROPERTY COVERAGE PART

Item 1. **NPIP Retained Limit:**
Real and Personal Property Coverage Part
Each **Occurrence** $50,000

Item 2. **Limit of Insurance:**
Real and Personal Property Coverage Part
Each **Occurrence** $75,000,000 Per all Members of the Group Combined

Item 3. **Sublimit of Insurance:**

The Sublimits of Insurance shown below are part of and not in addition to the Limit of Insurance shown above for the Real and Personal Property Coverage Part. These sublimits apply excess of the Real and Personal Property Coverage Part **Retained Limit** shown above.

- Accounts Receivable: $100,000 Per Member
- Additions, Alterations and Repairs: N/A
- Business Income and Extra Expense: $250,000 + Scheduled Per Member
- Computer Systems: $1,000,000 Each Occurrence, Per Member
- Electronic Data and Media: $250,000 Each Occurrence, Per Member
- Computer Systems and Electronic Data and Media: $10,000,000 Annual Group Aggregate
- Contractors’ Equipment: $100,000 Per Member
- Debris Removal: Lesser of 20% or $500,000 Per Member
- Fine Arts: $100,000 Per Member
- Newly Acquired or Constructed Property, Real and Personal Property: $1,000,000 Per Member
- Ordinance or Law:
  - Undamaged Portion of Building: 100% of value of damaged building Per Property Schedule
  - Increased Costs of Construction: Lesser of 25% of value of damaged building or $500,000 Per Member
  - Costs of Demolition: Lesser of 25% of value of damaged building or $500,000 Per Member
- Personal Property in Transit: $100,000 Per Member
- Pollutant Clean Up and Removal: $100,000 Annual Group Aggregate
- Property Off-Premises: $250,000 Per Member
- Valuable Papers and Records including cost of research: $100,000 Annual Group Aggregate
- Personal Property Owned by Employees – Per Employee: $5,000
- Personal Property Owned by Employees – Each Occurrence: $50,000
- Personal Property Owned by Employees – Annual Group Aggregate: $250,000
- Personal Property Owned by Teachers: N/A Per Member
- Personal Property Owned by Students: N/A
- Personal Property of Others – Per Person: $5,000
- Personal Property of Others – Each Occurrence: $50,000
- Personal Property of Others – Annual Group Aggregate: $50,000
- Fire Department Service Charge: $25,000 Per Member
- Business Income and Extra Expense for Utility Service Interruption: $250,000 Per Member
Item 4. **Additional Coverages/Endorsements:**

Flood - Each Occurrence and Annual Aggregate Per Member

- Flood Coverage declined by entity. Property located at the time of loss in any flood zone identified by FEMA as Zones A, AO, AH, A1 through 30, AE, A99, AR, AR/A1 through 30, AR/AE, AR/AO, AR/AH, AR/A, VO, V1 through 30, VE and V; or hold a similar high risk FEMA rating are excluded.

Flood – Group Annual Aggregate

- $25,000,000

Earthquake – Each Occurrence and Annual Aggregate Per Member

- Earthquake coverage declined by entity.

Earthquake – Group Annual Aggregate

- $25,000,000

Auto Physical Damage (except while in transit)

- $2,000,000

Auto Physical Damage (while in transit)

- $300,000

Margin Clause

The most we will pay for Ultimate Net Loss in any one occurrence at a premises described in the Property Schedule on file with the Insurer is 125% of the values shown on such schedule on file with the Insurer for Real Property and Personal Property at such described premises. This margin clause does not apply to Increased Cost of Construction or Demolition Costs as provided under the Ordinance or Law Coverage Extension, Debris Removal Coverage Extension, Pollutant Clean Up and Removal and the Fire Department Service Charge Coverage Extension, all subject to the Real and Personal Property Coverage Part Limit of Insurance and other policy terms and conditions.

Item 5. **Deductibles:**

**Real and Personal Property**

Except Earthquake, Flood and

**Automobile** Physical Damage for Scheduled **Automobiles**

Each Occurrence

See Schedule

1. Earthquake: 2% of insurable values, subject to $25,000 minimum, Per Member, Each Occurrence

2. Flood: 2% of insurable value, subject to a minimum of $25,000 and $100,000 maximum, Per Member, Each Occurrence. **Property** located at the time of loss in a flood zone identified by FEMA as Zones A, AO, AH, A1 through 30, AE, A99, AR, AR/A1 through 30, AR/AE, AR/AO, AR/AH, AR/A, VO, V1 through 30, VE and V; or hold a similar high risk FEMA rating are excluded.

3. **Automobile** Physical Damage for Scheduled **Automobiles**: See Schedule

4. Rental Vehicles: $500 Per Occurrence.

EQUIPMENT BREAKDOWN COVERAGE

Item 1. **NPIP Retained Limit:**
   Equipment Breakdown Coverage One Accident $50,000

Item 2. **Limit of Insurance:**
   Equipment Breakdown Coverage One Accident $75,000,000

Item 3. **Sublimits of Insurance:**

The Sublimits of Insurance shown below are part of and not in addition to the Limit of Insurance shown above for Equipment Breakdown Coverage. These sublimits apply excess of the Equipment Breakdown Coverage **Retained Limit** shown above.

- Expediting Expenses: Included
- Hazardous Substances: $1,000,000
- Spoilage: $500,000
- Electronic Data Restoration: $100,000
- Service Interruption: $100,000
- Business Income: Included
- Extra Expense: Combined with Business Income
- Contingent Business Income: $100,000
- Property Off Premises: $100,000
- Extended Period of Restoration: 60 days
- Newly Acquired Locations: Included; 365 days
- Service Interruption Waiting Period: 24 hours

Item 4. **Deductibles:**
   Equipment Breakdown Coverage Part $1,000, Each Accident
Coverage #: NPIP161863219
Insured: North Central Acct. Comm. of Health

DATA COMPROMISE COVERAGE

Item 1. **NPIP Retained Limit:**
   Data Compromise Coverage  Any one Personal Data Compromise  $0

Item 2. **Limit of Insurance:**
   Data Compromise Coverage  $5,000,000 Group Annual Aggregate

The Sublimits of Insurance shown below are part of and not in addition to the Limit of Insurance below for each Data Compromise Coverage Section.

**SECTION 1 – Response Expenses**
Data Compromise
Response Expenses Limit  $50,000 Annual Aggregate Per Member

Sublimits
   Named Malware (Sec. 1)  $50,000 Any one Personal Data Compromise
   Forensic IT Review  $5,000 Any one Personal Data Compromise
   Legal Review  $5,000 Any one Personal Data Compromise
   PR Services  $5,000 Any one Personal Data Compromise
   Regulatory Fines & Penalties  $25,000 Any one Personal Data Compromise
   PCI Fines & Penalties  $25,000 Any one Personal Data Compromise

**SECTION 2 – Defense and Liability**
Data Compromise
Defense and Liability Limit  $50,000 Annual Aggregate Per Member

Sublimits
   Named Malware (Sec. 2)  $50,000 Any one Personal Data Compromise

Item 3. **Deductibles:**
   Response Expenses Coverage:  $2,500 Any one Personal Data Compromise
   Defense and Liability Coverage:  $2,500 Each Data Compromise Suit
Coverage #: NPIP161863219
Insured: North Central Acct. Comm. of Health

Investing in Change Through the Whole Person Care Collaborative (WPCC)

Theory of Change and the Role of the Whole Person Care Collaborative

Background

The North Central Accountable Community of Health has elected to address health improvement through six different Medicaid Demonstration Projects that will involve a broad array of organizations well beyond medical care as will be described in future documents. However, because many purposes of the Medicaid Demonstration Projects cannot be addressed without changes in the care of patients, clinical provider organizations have a major role to play and many of the Demonstration dollars will be invested in them.

The NCACH board has designated the Whole Person Care Collaborative (WPCC) as the workgroup to coordinate and fund provider organizations’ improvement activities affecting all 6 demonstration projects. WPCC will directly manage projects 2a (bi-directional integration of physical and behavioral health care) and 3d (chronic disease prevention and control) and will also coordinate provider involvement with the workgroups managing the other 4 projects. Project plans will describe how other projects not directly covered by the WPCC (2b-Care Coordination, 2c-Transitional Care, 2d-Diversion, and 3A-Opioid Use) will be organized and funded. This document describes the process through which Demonstration investments in provider organizations could be made in an accountable, effective and transparent manner.

The core activity of the Collaborative is to plan and implement evidence-based practices necessary for provider organizations to improve effectiveness in two ways:

- **Clinically,** by providing Whole Person Care that integrates behavioral and physical health care, and more proactively identifies and addresses the medical and social health needs of the population to mitigate their negative health effects, and;
- **Financially,** by aligning clinical practices around the significantly different incentives and demands of new payment methods (mainly Value-Based Payment or VBP) now being implemented.

Because Medicaid Demonstration ends in 2021 (with incentive payments based on performance potentially coming in through 2023), the WPCC can support only improvement activities that can be sustained through Medicaid value-based payment mechanisms in the long run. Similar new payment approaches are being implemented in Medicare under MACRA and commercial payers, so changes developed under the Demonstration should be relevant to a large proportion of most providers’ patient populations.
It is important to emphasize that the purpose of Demonstration funds is not simply to help pay the operating costs of provider organizations during the life of the Demonstration, leaving a shortfall when Demonstration dollars are gone. The point is to help provider organizations make the investments needed to reconfigure their organizations and practices so that by the end of the Demonstration, they will be able to function effectively without subsidy from Demonstration dollars.

**Stages for Creating Sustainable Change**

The effort to create sustainable change of that kind has three stages:

1. **Development of a Change Plan.**
2. Implementation of that plan, using specific structure and process metrics to measure progress along the way.
3. **Sustaining and demonstrating improvement in clinical outcomes specific to each organization.**

<table>
<thead>
<tr>
<th>Stage 1</th>

<td>Improvement over Self or Gap to Goal (based on HCA framework)</td>
<td></td>
</tr>
</tbody>
</table>

Participating organizations can expect Demonstration funds to be used to support them in the planning, implementation, and sustaining of changes through the Demonstration period. Demonstration funding is substantial – depending on a variety of performance measures, our region can potentially earn up to $50 million dollars over the course of the 5-year demonstration (2017-2021.) **The overall effort to provide integrated Whole Person Care is the highest priority of the Demonstration.**

**Ongoing Work of the Collaborative**

The WPC Collaborative should become very effective as a learning collaborative for member organizations. For that to work, we will have to maintain some trust and transparency among WPCC members, so that we can learn from each other’s challenges as well as our successes. At the same time, we are all accountable for the way Demonstration dollars are used, and the Demonstration projects must be implemented in an accountable and transparent manner. WPCC would be the collection point for information on progress in implementing change plans. Both of these purposes – an effective learning collaborative, and accountability for public funds in order to earn further Demonstration dollars – will push us to cultivate openness and sharing of information among WPCC members.
Stage 1: Developing Change Plans

During the last part of 2017, all organizations in the NCACH region (Chelan, Douglas, Grant and Okanogan Counties) providing primary health care or behavioral health and who have undergone operational assessments to identify where they stand on the road to Whole Person Care are invited to submit Change Plans. Change Plans must be high in quality to justify significant investment of Demonstration funds in their implementation.

It is expected that the plans of different organizations will differ considerably; there is no one plan or pattern that fits every provider organization in this region. Although organizations in our region vary a great deal in size and in the degree to which they already achieve whole person care, none are so perfect that significant improvements cannot be made. In recognition that each organization is in a different place relative to an idealized model of Whole Person Care, the funding process is designed to support and fund improvement rather than reward or penalize organizations based on their current state.

It is not quick or easy to develop plans of this kind, if only because they require significant involvement by several parties including front-line providers who are also busy doing their normal work. Development of a workable change plan costs money, at a minimum in the form of substantial staff time. Many organizations will benefit from outside expertise on change management and plan development, and may have limited experience with VBP and the new options for care delivery it enables. Demonstration funding can support the cost of consultants to support effective change planning.

Timeframe for Stage 1 Change Plan Development

<table>
<thead>
<tr>
<th>Oct-Dec 2017</th>
<th>Stage 1 Change Planning Awards made</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jun 2018</td>
<td>Change plans due by the end of June 2018</td>
</tr>
</tbody>
</table>

Potential uses of Stage 1 Change Planning Awards

- Consultants or temporary staff support for change management, VBP, IT, or other topics
- Payments to providers and other staff for participation in Change Plan development
- Cost of staff time used in plan development instead of revenue-producing activities, including part time or replacement staff to support current operations.
- Costs for staff involvement in other activities necessary for plan development
Change Plan Application

Application for Stage 1 funding will require the following:

1. Completing the Qualis assessment relative to MeHaf or PCMH-A standards and submitting a Preliminary Improvement Plan resulting from the assessment. The Preliminary Improvement Plan should describe the results of the assessment and indicate the operational priority areas to be targeted in the Change Plan (these can be subject to change in the final Change Plan.)

2. A budget indicating how the funds will be used in the development of the Change Plan.

3. Signing and submitting a signed Membership Agreement to participate in the Whole Person Care Collaborative, indicating understanding and acceptance of the purpose and participation requirements for the Collaborative.

4. A signed Memorandum of Understanding with the NCACH addressing terms and conditions, including reporting requirements, for use of NCACH funds. (TBD)

Allocation of Demonstration Funds for Stage 1 Change Planning Awards

Although provider organizations will face many of the same challenges in developing Change Plans regardless of size, the level of Medicaid activity by each organization will influence the cost of Change Planning. As such, Stage 1 Change Planning Awards will be allocated to WPCC member organizations using the following Base-Plus methodology.

<table>
<thead>
<tr>
<th>Quintile</th>
<th>Additional Funds</th>
</tr>
</thead>
<tbody>
<tr>
<td>Top quintile</td>
<td>+ $30,000</td>
</tr>
<tr>
<td>Second quintile</td>
<td>+ $25,000</td>
</tr>
<tr>
<td>Third quintile</td>
<td>+ $20,000</td>
</tr>
<tr>
<td>Fourth quintile</td>
<td>+ $15,000</td>
</tr>
<tr>
<td>Bottom quintile</td>
<td>+ $10,000</td>
</tr>
</tbody>
</table>

Using this Base-Plus methodology, WPCC member organizations should expect an award between $85,000-$105,000 to boost and catalyze change planning during Stage 1.
Stage 2: Evaluating and Scoring Change Plans

Change Plans will be the basis for allocation of additional Demonstration funding during 2018-2020. This section previews the topics to be addressed by every Change Plan, and indicates the number of points that can be earned for each topic out of a total of 100 points. The scoring of Change Plans will be done by a neutral third party, with support from NCACH staff if needed. The change plan framework, including criteria, scoring, and questions to guide change plan development will be finalized before Stage 1 awards are made. Reporting requirements during Stage 2 will also be clarified.

At this time we know it is likely that several million dollars will be available annually for Stage 2 Implementation Awards, but the exact amount available to NCACH is not yet known because it depends on HCA’s evaluation of project plans to be submitted in November 2017 and subsequent reporting requirements. As a result, Stage 2 award amounts on the basis of Change Plan scores cannot be determined yet. As the amount of funding for Stage 2 awards becomes clear, the Executive Committee will develop an allocation method and propose it to the Governing Board for review and approval.

The following table describes the topics to be addressed in sections of the Change Plan, and provides a preliminary indication of the number of points (out of a total of 100) that can be earned by each section. Each section of the Change Plan should define metrics by which progress in change plan implementation should be measured. For example, if use of telehealth for mental health services is planned, agreements with telehealth providers could be documented early on, and later the provider organization could report how many such encounters occurred during implementation. We need ways to track actual implementation of the plan, and will favor metrics that are as practical and convenient as possible when it comes to data collection and reporting. Inclusion of appropriate implementation metrics in each section will be considered in scoring. This table is a “draft” only but provides a preliminary indication of the information that will be required to link change plans to the evidence based approaches to not only projects 2a and 3d, but all projects undertaken by the NCACH.

<table>
<thead>
<tr>
<th>#</th>
<th>Criteria</th>
<th>Description</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Demonstrates organizational readiness and commitment to transforming care</td>
<td>Traditional models of healthcare are generally reactive, encounter-based and designed to treat discrete and acute episodes of care that are site or provider specific. Transition to models of care that are pro-active, population based and coordinate care across a continuum of sites and providers will require a long-term commitment to change. The Change Plan should demonstrate the organization possesses the necessary foundations of leadership commitment, a durable and capable system of quality improvement, and systems for empanelment and population management necessary to undertake this journey. The proposal should describe the organization’s capabilities in this area and/or plans to develop and improve them. Changes Plans will be scored based on how well they demonstrate an understanding and commitment to the change process, how it will be managed, how progress will be tracked, measured, and reported. Additionally, organizations should describe how providers and their clinical teams would have significant involvement in guiding the change process.</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td>Addresses most important improvement opportunities identified in the assessment phase</td>
<td>The Change Plan demonstrates an understanding of the organization’s current state relative to evidence-based and idealized models (e.g. PCMH-A or MeHAF) of whole person care as well as its most significant opportunities for improvement toward that model. The proposal should cite evidence of a self-assessment (Qualis or other) as well as qualitative data to support the priorities for improvement and approach taken. Changes Plans will be scored based on how well they demonstrate linkages between proposed process improvements and the way they proactively address the planned/necessary care needs of patients with chronic disease in both primary care and behavioral health agency settings, particularly those with depression, cardiovascular disease, diabetes, and asthma. <strong>Demonstration resources</strong>&lt;br&gt;☑ Chronic Care Model <a href="http://www.improvingchroniccare.org">www.improvingchroniccare.org</a></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>25</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td>Promotes the bi-directional integration of Physical and Behavioral Health</td>
<td>A Change Plan should address bi-directional integration of physical and behavioral health, as it will be implemented in this organization, including any cooperative arrangements to be made with partners. The plan should be detailed and practical and should include measures not only to conveniently access BH and medical providers in the same facilities (whether through co-location, telehealth, or other means), but also measures to change the practices of front-line providers in such a way that medical and BH providers collaborate effectively on the care of patients. For primary care practices, Change Plans will be scored based on how well they address the Bree Collaborative’s Behavioral Health Integration Report and Recommendations, or the AIMS Collaborative Care Model. For behavioral health agencies, Change Plans should demonstrate how the unique health care needs of people with serious mental illness and or substance use disorders will be addressed (e.g. multi co-existing chronic conditions, poor access to primary care, reduced life expectancy) through off-site enhanced collaboration, co-located enhanced collaboration, or through co-located integrated care. <strong>Demonstration resources</strong>&lt;br&gt;☑ Bree Collaborative “Standards for Integrated Care” <a href="http://www.breecollaborative.org/wp-content/uploads/Behavioral-Health-Integration-Final-Recommendations-2017-03.pdf">http://www.breecollaborative.org/wp-content/uploads/Behavioral-Health-Integration-Final-Recommendations-2017-03.pdf</a>&lt;br&gt;☑ Collaborative Care Model: <a href="http://aims.uw.edu/collaborative-care">http://aims.uw.edu/collaborative-care</a>&lt;br&gt;☑ AIMS Center/WA Council for Behavioral Health Project 2A Resources: <a href="https://www.thewashingtoncouncil.org/training-technical-assistance/">https://www.thewashingtoncouncil.org/training-technical-assistance/</a><a href="http://www.milbank.org/wp-content/files/documents/papers/Integrating-Primary-Care-Report.pdf">Integrating Primary Care into Behavioral Health Settings: What Works for Individuals with Serious Mental Illness</a></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>20</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td>Addresses the Opioid Epidemic</td>
<td>The Change Plan should address the organization’s capacity and intentions to help address the Opioid epidemic. This could include adoption of regional and state prescribing guidelines regarding opioids and benzodiazepines, increases in the number of suboxone prescribers among the organization’s prescribers, or other measures appropriate for the organization. It should also include the designation of a point person for the organization to participate in county and regional opioid related initiatives. <strong>Demonstration resources</strong></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>5</td>
<td></td>
</tr>
<tr>
<td>Addresses methods for addressing social determinants of health</td>
<td>The essence of more effectively addressing the social determinants of health – those outside-the-clinic factors that greatly influence health and the effectiveness of health care – is to connect patients with resources that can help them deal with those factors. Many of those resources are community agencies and services that address factors such as employment, housing, nutrition &amp; food sufficiency, education, childcare, chronic disease self-management. The proposal should describe the organization's plans to refer patients to and coordinate care with agencies in support of patient wellness.</td>
<td>5</td>
<td></td>
</tr>
<tr>
<td>---</td>
<td>---</td>
<td>---</td>
<td></td>
</tr>
<tr>
<td>Financial Sustainability through Value-Based Payment</td>
<td>The demonstration project can provide change management support and short-term investments in innovative approaches to care. However, any changes in care must have a plan for funding through future value-based payment mechanisms beyond the demonstration period. The Change Plan should provide a budget showing as much detail as possible about the costs of implementing the planned changes between now and the end of 2021. To the extent these operational changes will require Demonstration Project funding to implement, describe how they will be sustained through value-based payment arrangements beyond the demonstration period.</td>
<td>10</td>
<td></td>
</tr>
<tr>
<td>Care Coordination, Transition and Diversion</td>
<td>An important aspect of population health is the management of care across the continuum of providers, facilities, organizations and agencies involved in a patient’s care. The Change Plan should describe how care both within the organization and outside can be coordinated to ensure unnecessary lapses in or duplication of care can be avoided, with particular attention to strategies for addressing psychiatric admissions, readmissions, and Emergency Room visits. The Change Plan should address how proactive population management will ensure care is provided at the right time an in the right place to avoid unnecessary use of Emergency Rooms and Hospitals (Diversion) and how patients treated in those settings receive appropriate follow up care to address avoidable readmission (Transition.) Also, the NCACH Pathways Care Coordination HUB project is designed to make connections with community resources relatively quick and easy for providers, and to provide a framework for coordinating and funding care coordination. The Change Plan should discuss how any current care coordination efforts provided by the organization could become part of the HUB effort. At a minimum (since it will take some time for the HUB to reach the entire region) the plan should demonstrate an understanding of the HUB concept and indicate a willingness to cooperate with the HUB when it becomes available to the organization’s patients or clients.</td>
<td>10</td>

<table>
<thead>
<tr>
<th>8</th>
<th>Access to Care</th>
<th>North Central Washington is underserved in terms of common provider/population ratios that make it difficult for patients to visit a provider. Additional barriers, including insurance coverage, lack of after hours coverage, geography, weather, transportation, and language can reduce timely access to appropriate care and result in unnecessary exacerbations of readily preventable or treatable conditions. Fortunately, improvements in technology and innovative approaches to access, including telemedicine, e-medicine, phone visits, nurse triage/advice lines, and case management services can be effective in leveraging traditional provider visits and are increasingly reimbursed by insurers. The Change Plan should describe innovative approaches the organization is taking to improve access to in-person care with providers as well as other innovative approaches to respond to patient needs.</th>
<th>10</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total</td>
<td></td>
<td></td>
<td>100</td>
</tr>
</tbody>
</table>

A few elements may be required but are not scored separately:

- The plan should indicate the extent (if any) to which the physical infrastructure of the organization may need to be altered to accommodate expected changes. For example, offices might need to be reconfigured to allow for co-location of BH or primary care providers, or for members of an expanded care team. Costs for such changes should be included in the budget.

- A discussion, especially for smaller providers, of the way the applicant plans to use collaboration among provider organizations to make more efficient use of funds. For example, two or three smaller organizations could share the same Change Management consultant in plan development. IT consultants could be shared. Or multiple organizations could cooperate on 24/7 nurse call lines which would not be affordable to any single small organization.

- The plan must indicate a commitment to share plans, metrics, results, problems and experiences with other members of the Whole Person Care Collaborative in an open learning-oriented manner to support an effective learning collaborative. If the applicant expects to withhold certain kinds of information (such as proprietary business information) this section should explain how it will be possible to achieve a meaningful learning collaborative without sharing information of that kind.
• The plan should give a concise description of the member’s services, staffing, facilities and patient population to assure reviewers have a good understanding of the organization.

• The applicant may add other elements to the Change Plan to clarify its approach to Demonstration work, though there is no reward for quantity.

Timeframe for Stage 2 Evaluation and Implementation

**Jul-Sep 2018**

After evaluation of change plans, the first installment of Stage 2 Change Implementation Awards will be made.

**Oct-Dec 2018**

Change Plan implementation begins. Subsequent Implementation Awards will be based on demonstrated progress as reported in semi-annual reports to the NCACH.

Stage 3: Sustaining Change and Demonstrating Improvement in Outcomes

In order for the NCACH to achieve its goal of health improvement, all organizations must improve regardless of their starting point. It’s therefore the intent of the Collaborative is to challenge each organization equally and to reward incremental improvement and to avoid penalizing or rewarding organizations for their current state. The WPCC will work with the HCA and the member organizations to define each organization’s baseline performance on some or all of the clinical outcome measures which can be substantially improved through the Change Plans. (See attached Approved Project Metrics Appendix.) Incentive payments to participating WPCC members will be based on their relative contribution to aggregate ACH improvement in these clinical outcomes and amounts will be subject to incentive funds awarded to the ACH by the HCA.
Transitional Care and Diversion Interventions Workgroup Charter

Background
On January 9th, 2017 the Washington State Health Care Authority (HCA) signed an 1115 Waiver, now known as the Medicaid Transformation Demonstration Project. The goal of the Demonstration is to improve care, increase efficiency, reduce costs and integrate Medicaid contracting. To align clinical integration with payment integration within the Demonstration Project, HCA developed the Medicaid Demonstration Project Toolkit. Two of the projects that were selected are Transitional Care and Diversion Intervention. The project objects, as described in the toolkit, are:

- Transitional Care – improve transitional care services to reduce avoidable hospital utilization and ensure beneficiaries are getting the right care in the right place
- Diversion Interventions – Implement diversion strategies to promote more appropriate use of emergency care services and person-centered care through increased access to primary care and social services, especially for medically underserved populations.

Charge
The Transitional Care and Diversion Interventions Workgroup will ensure that the North Central region implements effective evidence based practices that align with the milestones and approaches described in the Toolkit. Specifically the Workgroup will complete the following:

- Provide recommendations to the NCACH Governing Board and staff on approaches to take for Transitional Care and Diversion Interventions projects.
- As much as possible, ensure Diversion Interventions and Transitional Care projects align with all six projects NCACH selected to implement.
- Collect, synthesize, and use stakeholder and community input on project planning and implementation.
- Work with NCACH partners to implement sustainable changes in the regional health care system (broadly conceived) that improve effective transitions for patients re-entering the community from intensive care settings or incarceration, and provide more effective alternatives to incarceration, inpatient treatment or emergency department care for patients whose needs can be better addressed in other ways.
- Determine how work completed through Transitional Care and Diversion Interventions are able to be financially sustainable past the Demonstration period.
- As much as possible, ensure projects effectively connect patients with resources to mitigate the negative consequences of the social determinants of health.
- Identify how IT, workforce, and value-based payment strategies can support this project.

Composition
The Transitional Care and Diversion Interventions Workgroup will include representatives from Grant, Chelan, Douglas, and Okanogan Counties. Workgroup membership is not a prerequisite to receiving funding through the Demonstration. The NCACH Executive Director will recommend to the Governing Board workgroup members from a list of interested parties which may include:

- Emergency Medical Services (EMS)
- Law Enforcement
- Legal Services
- Regional Justice Centers (Jails)
• Hospitals
• Skilled Nursing Facilities/Assisted living/Long-term Care Facility/Hospice
• Aging and Adult Care
• Managed Care Organizations (Operating in all 4 NCACH counties after January 1st, 2018)
• Behavioral Health Administrative Service Organization
• Behavioral Health Providers including Crisis providers
• Primary Care Providers
• Care Coordination agency/Case Managers
• Education
• Tribal

Additional representation will be added to the Workgroup by the Executive Director if it is deemed necessary. A Workgroup Chair will be appointed by the Executive Director. The Transitional Care and Diversion Interventions Workgroup is a sub-committee of the NCACH board and as such will be led by the Workgroup Chair and NCACH staff and must have a minimum of two board members serving on the Workgroup.

Meetings
Transitional Care and Diversion Interventions Workgroup meetings will be held once per month, with additional meetings scheduled as necessary. Meetings will be held in Chelan, Douglas, Grant, and Okanogan Counties; locations will vary and an effort will be made to hold meetings in each of the Local Health Jurisdictions throughout the year. Whenever possible, meetings will have an option to participate via teleconference or audioconference for those unable to attend in person, although in-person participation is encouraged. NCACH program staff and the Workgroup Chair shall be responsible for establishing the agendas. Notes for all meetings will be provided to the Workgroup by NCACH staff within two weeks of each meeting. Monthly meetings will be open meeting minutes and materials will be posted on the NCACH website (www.ncach.org).

Membership Roles and Responsibilities
1. Attend at least 75% of regular meetings of the Workgroup and actively participate in the work of the Workgroup.
2. Sign a Membership Agreement (attachment A)
3. Communicate with other members of your sector and/or community to ensure broader input into the design, planning, and implementation process.
4. Assess current state capacity to effectively deliver Transitional Care and Diversion Interventions.
5. Select initial target population and evidence-supported approaches informed by the regional health needs assessment and community data.
6. Review prepared data to recommend target population(s), to guide project planning and implementation, and to promote continuous quality improvement.
7. Assist in identifying, recruiting, and securing formal commitments for participation from implementation partners via a written agreement specific to the role each organization and/or provider will perform in the selected approach.
8. Recommend to the Board a project implementation plan, including a financial sustainability model and how projects will be scaled to full region in advance of HCAs project implementation deadline.
9. Monitor project implementation plan, including scaling of implementation plan across region, and provide routine updates and recommended adjustments of the implementation plan to the NCACH Governing Board.
10. Develop and recommend a funding process to the NCACH Governing Board for non-primary care and outpatient behavioral health members involved in Transitional Care and Diversion Interventions projects
11. Collaborate with NCACH staff on data and reporting needs related to Demonstration metrics, and on the application of continuous quality improvement methods in this project.
12. Use strategies that are supported by regional data, to advance equity and reduce disparities in the development and implementation of the Opioid Projects.

Authority
The Transitional Care and Diversion Interventions Workgroup is an advisory body that will inform decision-making by the NCACH Governing Board and ensure regional priorities and local considerations are incorporated in program design decisions. Recommendations and input developed by the Workgroup will be shared in regular monthly progress reports to the NCACH Governing Board.
Membership Agreement

I acknowledge by my signature of this membership agreement that I have read, understood, and agreed to follow the guidelines and policies outlined in the North Central Accountable Community of Health Transitional Care and Diversion Interventions Workgroup Charter.

I understand that continued membership in the Workgroup is contingent on following the requirements of membership that are outlined in the Charter. Not meeting the requirements for membership could result in the loss of my membership status in the Workgroup.

Regional Opioid Stakeholder Workgroup Charter

Background
On January 9th, 2017 the Washington State Health Care Authority (HCA) signed an 1115 Waiver, now known as the Medicaid Transformation Demonstration Project. The goal of the Demonstration is to improve care, increase efficiency, reduce costs and integrate Medicaid contracting. To align clinical integration with payment integration within the Demonstration Project, HCA developed the Medicaid Demonstration Project Toolkit. One of the projects that all ACHs are required to select is to address the opioid use public health crisis. The project objective, as described in the toolkit, is to support the achievement of the state’s goals to reduce opioid-related morbidity and mortality through strategies that target prevention, treatment, and recovery supports.

Charge
The Regional Opioid Stakeholder Workgroup will ensure that the North Central region implements effective evidence based practices that align with the milestones and approaches described in the Toolkit that will result in reducing opioid-related morbidity and mortality in North Central Washington. Specifically the Workgroup will complete the following:

- A primary aspect of this Workgroup’s approach will be to support and work through the Local Opioid Stakeholder Groups already working in Chelan-Douglas, Grant, and Okanogan Counties to promote connections to existing opioid efforts in the region, leverage current capacity, and address identified gaps.
- Provide specific recommendations to the NCACH Governing Board and staff on approaches to take for opioid prevention, treatment, overdose prevention, and recovery projects.
- As much as possible, ensure opioid projects and approaches align with all six projects NCACH selected to implement.
- Collect, synthesize, and use stakeholder and community input on opioid project planning and implementation.
- Determine how opioid prevention and treatment work is able to be financially sustainable after the Demonstration period.
- As much as possible, ensure projects effectively connect patients with resources to mitigate the negative consequences of the social determinants of health.
- Identify how IT, workforce, and value-based payment strategies can support this project.

Composition
The Regional Opioid Stakeholder Workgroup will include representatives from Grant, Chelan, Douglas, and Okanogan Counties. Workgroup membership is not a prerequisite to receiving funding through the Demonstration. Each of the Local Opioid Stakeholders Group will be asked to identify three members to participate in the Regional Opioid Stakeholder Workgroup. The Executive Director will recommend to the Governing Board additional members as needed to assure representation from:

- Emergency Medical Services (EMS) and First Responders
- Law Enforcement
- Regional Justice Centers (Jails) and Juvenile Court
- Education
- Public Health
• Emergency Departments (Hospitals)
• Primary Care
• Behavioral Health
• Managed Care Organizations (Operating in all 4 NCACH counties after Jan. 1, 2018)
• Behavioral Health Administrative Service Organization
• Dental
• Pharmacy
• Tribal

Additional representation will be added to the Workgroup by the Executive Director if it is deemed necessary. A Workgroup Chair will be appointed by the Executive Director. The Regional Opioid Stakeholder Workgroup is a sub-committee of the ACH board, and as such will be led by the Workgroup Chair and NCACH staff and must have a minimum of two board members serving on the Workgroup.

Meetings
Regional Opioid Stakeholders Workgroup meetings will be held once per month, with additional meetings scheduled as necessary. Meetings will be held in Chelan, Douglas, Grant, and Okanogan Counties; locations will vary and an effort will be made to hold meetings in each of the Local Health Jurisdictions throughout the year. Whenever possible, meetings will have an option to participate via teleconference or audioconference for those unable to attend in person, although in-person participation is encouraged. NCACH program staff and the Workgroup Chair shall be responsible for establishing the agendas. Notes for all meetings will be provided to the Workgroup by NCACH staff within two weeks of each meeting. Monthly meetings will be open and meeting minutes and materials will be posted on the NCACH website (www.ncach.org).

Member Responsibilities
1. Attend at least 75% of regular meetings of the Workgroup and actively participate in the work of the Workgroup.
2. Sign a Membership Agreement (attachment A).
3. Local Opioid Stakeholder Groups representatives members are expected to report Workgroup progress at County Stakeholder meeting to ensure bi-directional communication and provide direction to Regional Opioid Workgroup.

4. Work with Local Opioid Stakeholders Groups on the Opioid Project planning and implementation for the Medicaid Demonstration Project.

5. Assess current state capacity to deliver effective opioid use prevention and treatment interventions.

6. Select initial promising practices and/or evidence-supported approaches informed by the regional health needs assessment.

7. Review prepared data to recommend target population(s), guide project planning and implementation, and promote continuous quality improvement.

8. Assist in identifying, recruiting, and securing formal commitments for participation from implementation partners via a written agreement specific to the role each organization and/or provider will perform in the selected approach.

9. Recommend to the Board a project implementation plan, including a financial sustainability model and how projects will be scaled to full region in advance of HCAs project implementation deadline.

10. Monitor project implementation plan, including scaling of implementation plan across region, and provide routine updates and recommended adjustments of the implementation plan to the NCACH Governing Board.

11. Develop and recommend a process for primary care and outpatient behavioral health partners involved in the implementation of the Opioid Project to receive Demonstration funds.

12. Collaborate with NCACH staff on data and reporting needs related to Demonstration metrics, and on the application of continuous quality improvement methods in this project.

13. Use strategies, that are supported by regional data, to advance equity and reduce disparities in the development and implementation of the Opioid Projects.

**Authority**

The Regional Opioid Stakeholders Workgroup is an advisory body that will inform decision-making by the NCACH Governing Board and ensure regional priorities and local considerations are incorporated in program design decisions. Recommendations and input developed by the Workgroup will be shared in regular monthly progress reports to the NCACH Governing Board.
Membership Agreement

I acknowledge by my signature of this membership agreement that I have read, understood, and agreed to follow the guidelines and policies outlined in the North Central Accountable Community of Health Regional Opioid Stakeholder Workgroup Charter.

I understand that continued membership in the Workgroup is contingent on following the requirements of membership that are outlined in the Charter. Not meeting the requirements for membership could result in the loss of my membership status in the Workgroup.

Early Warning System Workgroup Recommendations

Early Warning System Workgroup of the Fully-Integrated Advisory Committee
North Central ACH
October 2nd, 2017
Formation of Early Warning System

• Local Decision-Making
  – Agreement to become Mid-Adopter from Grant, Chelan, and Douglas Counties

  – Formation of Accountable Community of Health Advisory Committee and Subgroups

  – ACH Deliverable to Health Care Authority is Early Warning System indicators & process
Basics of Early Warning System

• Early Warning System (EWS) is intended to provide a mechanism for rapid feedback and problem-solving, to identify any issues that arise specifically from the transition of BHO to MCOs and BH-ASO, and resolve those issues collaboratively.

• EWS starts in January 2018, with 6 months of baseline data.

• Early Warning System will track data for 6 months, then will transition to the Research & Data Analysis (RDA) Dashboard for more detailed long-term measurement.

• Early Warning System is both data measurement and regular communications.
Diverse Workgroup Representation

- Apparently Successful Bidder Managed Care Organizations
- Beacon Health Options (BH-ASO)
- Behavioral Health Organization (BHO)
- Physical Health Providers
- Behavioral Health Providers
  - Chemical Dependency & Mental Health
- Accountable Community of Health
- Criminal and Juvenile Justice System
- Health Care Authority
- Analytic, Interoperability, and Measurement (AIM)
Draft Early Warning System Categories

1. Criminal & Juvenile Justice System
2. Access to Behavioral Health Services
3. Provider Payments
4. Crisis System
5. Eastern State Hospital
Early Warning System Indicators

1. **Spikes in jail use (BH-related)**
   - Chelan, Grant, Douglas tracking BH indicators on intake forms
     • Are you currently Suicidal?
     • Are you seeing a mental health provider?
   - Chelan/Grant juvenile detention center
     • Crisis line wait times
     • DMHP response times
     • *Incorporated into Crisis Services Indicators*
2. Access to Care
   - Bed availability
     • # of no bed reports
     • # single bed certs
   - Emergency Department visits for individuals with a history of BH problem
   - Wait times for BH services (time between request for services and intake)
   - Access to care for clients in border communities
   - Out of region providers accepting NC clients
   - Use of Detox Services by Medicaid/Non-Medicaid clients
3. **Provider Payments**
   - Behavioral Health Claims Status
     - # of BH claims submitted by BH provider
     - # of BH claims received by MCOs
     - # of BH claims paid by MCOs
     - # of BH claims denied by MCOs

   - Top 5 reasons for BH claim or encounter resubmission
Early Warning System Indicators

4. Crisis Services
   – Hotline
     • # of incoming calls
     • # calls answered
     • Call answer timeliness (# of calls answered within 30 seconds)
     • Average speed of answer
     • Abandonment rate

   – Investigations/Detentions
     • # Mental Health ITA investigations
     • # of SUD ITA Investigations
     • # detained
     • # voluntary admit
     • # discharged with referral
Early Warning System Indicators

5. Eastern State Hospital
   – Bed Census
   – Forensic Flips Census
   – Discharges
   – Waitlist
# Calls to Hotline

Healthier Washington
Next Steps

- FIMC Advisory Committee to approve EWS indicator recommendations – approved on September 20th

- NCACH Governing Board approve EWS indicators on Oct. 2nd

- Collect baseline data and provide draft reporting example to EWS Workgroup

- Identify participants for daily/weekly calls January 2018

- Activate calls/reporting in January 2018
