This Community Health Needs Assessment is an important step to future collaborative efforts to improve population health in our communities. We hope you take this opportunity to give us your input. The survey has five required health category questions and approximately 75 optional but important "health indicator" questions. It should take five to eight minutes to complete.

THANK YOU for providing us your input and recommendations on the importance you assign to the initial list of Community Health Indicators our Steering Committee has identified so far. This is an ongoing process and we look forward to your continued participation in completing this important Community Health Needs Assessment and future collaboration in improving our population health in North Central Washington.

If you have any questions regarding the survey, contact Jesus Hernandez at jesush@communitychoice.us.

* Required

Category: Health Access. *

Check the indicator domains that you consider highly important to track and report on in this and future health needs assessments.

- Health insurance
- Unmet medical need
- Immunizations
- Maternal/Child health
- Clinical preventive screenings
- Oral health
- Other:

Category: Health Outcomes. *

Check the indicator domains that you consider highly important to track and report on in this and future health needs assessments.

- Overall health
 Maternal/Child health
 Reproductive health
 Communicable diseases
 Injury and violence
- Chronic diseases
- Mental health
- Alcohol abuse
- 📃 Drug abuse
- Other:

uture health needs assessments.	
Chronic diseases	
Environmental exposure	
Other:	
Category: Risk Factors. *	
Smokers	
Unhealthy weight	
Physical inactivity	
Alcohol abuse	
Hypertension	
Other:	
Category: Social determinants. *	
Poverty	
Educational attainment	
US Born	
Childhood development	
Other:	
Other Categories	
	nealth indicators would you recommend be included?
	<i>k</i>

For each category of indicators above, we welcome your input on the importance you place on the specific indicators listed for each domain. This portion of the survey is optional, but your feedback is highly valued. THANK YOU FOR YOUR INPUT.
