

## Changes are coming to Washington Apple Health (Medicaid) in 2019 for Okanogan County

### We are making a shift to better care

Apple Health is shifting to whole-person care. This means care is coordinated so that people get the help they need, for body (physical health) and mind (mental health), including substance use.

As part of our commitment to deliver better care, Apple Health plans in Okanogan county, will change beginning Jan. 1, 2019. We recognize change can be disruptive, but we have put in place resources so the transition is as smooth as possible. This change will not reduce any benefits. Apple Health clients will continue to receive all of the same services they currently receive.

### Available plans

Apple Health coverage will continue to be available through Amerigroup, Coordinated Care, and Molina Healthcare in 2019. These plans will also start to cover behavioral health treatment services.

In 2019, Apple Health coverage through Community Health Plan of Washington or United Healthcare of Washington will not be offered in Okanogan county. Clients enrolled in either of those plans will move to one of the offered plans. Apple Health will send clients information about the health plan they will be enrolled in before January 1. The mailing will explain how to make a change if the client wants to.

Beacon Health Options will manage the behavioral health crisis system for the region.

### We will keep you informed

We will share information with clients and the wider community so that people are prepared for the change and clients have time to choose another plan if they want to.
