COVID-19 Vaccine Updates

Can you give us an update of the vaccine rollout efforts to date? How many people have been vaccinated? How many vaccines is the region receiving through the federal and state vaccine distribution?

Last time, we discussed barriers that were keeping vulnerable communities from being able to access the vaccine. Could you tell us a bit more about some of the work that is occurring to help reduce these barriers and get more people vaccinated?

Can you share any updates about plans to get H2A workers and other essential, vulnerable people, vaccinated? Are H2A employers involved in these efforts?

Can you tell us a bit more about the strategy for reaching Spanish-speaking populations, and perhaps ways the community can help support these efforts?

Got One? Help One Campaign and Volunteer Discussion

- Stemmed from the Senior Sector Call and discussed at February CHI meeting
- Held a next step meeting on March 4, 2021
 - 16 stakeholders were in attendance

COVID-19 Communication Efforts

What are CAFE's current efforts around COVID and vaccination?

Could you tell us a bit about the problem you saw in the community that helped catalyze some of these current efforts?

In a nutshell, how would you describe the project or efforts that CAFÉ is leading to reach people and help them get vaccinated?

Why is this work important? What difference do you see it making in the community?

What's next for these efforts?

How can the CHI help and partner with these efforts?
