

Chelan-Douglas CHI Strategic Planning:

***Need to finalize Mission Statement, Vision and Values/Guided Principles**

Most Voted Mission Statement (18 votes out of 21): To provide space with diverse partners to work together to improve the health and well-being of our community

Recommendations from those that took the survey:

- Connecting diverse partners to assess health needs, strengthen cross-sector collaboration and facilitate action to improve the health and well-being of our community
- **The Chelan-Douglas CHI works together to close gaps, increase collaboration, and improve the health of the community**
- To connect diverse partners and foster cross-sector collaboration to improve the health and well-being of our community
- The CHI elected to be an active group rather than a networking group and I think it is important to capture this difference in the mission/purpose statement.... Also, without a "Vision" statement, is it a challenge to accurately identify an appropriate mission statement on "how" to do something that isn't identified.
- I don't think we need to include "to provide space." My suggestion: To promote community health and well-being through education to foster cross-sector networking and collaboration among diverse partners
- To encourage and facilitate collaboration of diverse partners who improve community health and well-being.
- ask the CHI at large, "what needs to be covered", "what should we focus on", then create future meetings , presentations to tackle the chosen topics. How can we begin to incorporate engagement within the CHI as we work to start reconnecting with the community.
- I like the first statement, but it needs to have a "to do what" at the end. e.g. ...and collaboration to improve the health and wellbeing of our community."

Values and Guiding Principles:

- To listen to diverse voices that reflect the communities we serve.
- Inclusivity, consistency and accountability
- Respect: honoring the value each diverse voice contributes; Education: positioning towards growth in self and sector;
- Education, advocacy, networking, collaboration
- Respect, Open-minded (already practicing these)
- Empowerment
- Inclusive and respectful of input from all age groups, cultures, genders, ethnicities, disabled populations, etc.

Vision Needed:

Example- Our vision is to build collaborative and healthy communities in Chelan and Douglas counties.

Strategic Framework of Goals Needed:

Example:

Collaborate: Definition

Goal #1:

Goal #2:

Assess: Definition

Goal #3:

Goal #4:

Mobilize: Definition

Goal #5:

Goal #6:
