

Mission Statement:

To provide a space with diverse partners, working together on improving the health and well-being of our community

Definitions:

Mission Statement: Where do we want to go?

Vision: How do we get there?

Values: Form the foundation of everything the coalition does.

How to begin crafting a vision statement:

- 1) What is our purpose?
 - Mission Statement: To provide a space with diverse partners, working together on improving the health and well-being of our community
- 2) What are our strengths as a coalition?
- 3) Why what we do matters?
- 4) How do we want to make a difference?
- 5) What is our impact?

Vision Statement

Strengths: We bring a number of partners together that have a shared goal and hopes for a positive outcomes. These partners do work in multiple areas and we have different skill sets and expertise to offer the coalition.

Why does our work matter: The reason for our work is to improve quality of life for our communities. It is very important to have representatives for different groups in the community, because it helps us all be inclusive and bring awareness to different needs in the community

What is our impact: Without our collaborative work, we wouldn't be able to fill the gaps and needs of our communities.

Purpose-original intent was for recognition that health occurs outside of healthcare, community contributes 80% - to come together and provide service to reduce barriers to optimal health and well-being; the collaboration between organizations is crucial in helping with all aspects of life - strengths-reducing barriers, a strong collaboration, in both small and larger group settings, group fosters networking with diverse partners, voice concerns, realize that we aren't the only organization dealing with issues ie. staff shortages, -why it matters- networking services, lots of siloed services, helps reduce duplication of services,

How do we want to make a difference: Be more mindful about being inclusive towards everyone.

Vision Statement

- Strengths: Identifying gaps, supporting agencies and organizations, networking, diversity in groups, educating community, resource introductions and how to navigate them.
- Why what we do is important: Addressing community needs,
- How do we want to make a difference: Continue to assist and educate on how to use the resources and navigate them, building connections, bringing funding opportunities into the CHI.
- What is our impact: New programming resources, Community Health Equity and connections
- Priorities: Connections and Navigation, Community Health Equity, Identifying gaps, Funding opportunities

How do we make a difference?-fostering the networking, resources through the CHI are really beneficial, making an impact through the networking and collaboration

“Engaging key partners/ community parts” “Unite”

How do we measure improvement? How do we know that the work of the CHI improved health and well-being?

Values

Diverse thinking
Diverse equates ensuring coalition
brings in representatives from
varying entities (medical,
educational, government, business,
faith based, clubs, non-profits etc)
Commitment
Trusting Relationships
Respect
Empathy
Helping the members of the
community meet Maslow's Basic
Needs

Inclusivity
Accessibility
Diversity in our coalition
membership
Representation of
different communities

Information
Resources
Collaboration
Making connections
Impacting individuals
Advocates to all
Motivated
Adaptability

Inclusiveness
Collaboration

Education

Chelan-Douglas CHI: Functions

1 | Collaborative Capacity

Ability to work cooperatively with others in a variety of contexts, including collaborative learning, creative thinking, problem-solving, and decision-making

2 | Support

Cross-sector partnerships and networking

3 | Funding

Identify opportunities and needs

Chelan-Douglas CHI: Functions

4 | Assess

Current gaps and needs

5 | Advocacy

Convene Legislative Forum
and other forms of advocacy

6 | Mobilize

To assemble and make ready
for action

How do we reach our goals?

Collaborative Capacity

Goals:

Promote groups doing similar work
(other community forums/meetings)

Expand the number of
individuals/agencies coming to
meetings

Engage new partners - find new
routes like social media

Increase community participation, Invite other
community partners

Collaborative approach on identifying
overlapping services (mapping them out?)

How do we reach our goals?

Support

Goals:

Include training for coalition members
that benefit group (DEI)

Bettering accessibility to CHI meetings
(translation services, TTY, etc)

Identifying the need of the
agencies, and/or communities

Involving churches, bringing in
direct frontline advocacy workers

Cross sector coordination and
collaboration.

How do we reach our goals?

Funding

Goals:

Put out an RFP

Gaps in budgets - restricted funds
pose challenges
HR support-contract
management-IT support-where can
we start aligning the gaps

Identifying needs and sharing
resources and opportunities.
Having a specific space in the CHI
to share that information

Share funding between agencies
for the mutual outcome of the
community.

Fund/support a referral system or
resource directory remove barriers
to access and resource navigation

How do we reach our goals?

Assess

Goals:

Every coalition member can turn in community feedback reports so as a coalition we can discuss how to meet those needs

Keeping track of what and how we are “improving health and well-being”

Providing a place for agencies to work together to overcome barriers

How do we reach our goals?

Advocacy

Goals:

Take on the legislative forum.

Contact political representatives, invite staff members to meetings to join our conversations

Keeping track of what and how we are
“improving health and well-being”

How do we reach our goals?

Mobilize

Goals:

Understand the resources and groups (like the CHI) in our community. Make better referrals
