10/13/2015

Dear Barry Kling,

The North Central Region Emergency Care Council's Mobile Integrated Healthcare Workgroup would like a voting position on the NCACH Board. The Workgroup is composed of representatives from prehospital, hospital, Medical Program Directors, Public Health, air ambulance and fire agencies, services and departments in North Central Washington (Okanogan, Grant, Chelan and Douglas County). Our Mission is *Improving lives and health outcomes through interagency collaboration*. Our Vision is: *To create a regional healthcare system that promotes a multi-disciplinary collaboration of healthcare providers by increasing knowledge and access to providers and available resources*. Our Tag Line is *Right Patient, Right Facility, Right Mode of Transportation, Right Care and Time at the Right Cost*.

If our request is approved we have selected Ray Eickmeyer from Lake Chelan EMS and Suzanne Beck from NW MedStar as an alternate.

Please let me know if there is any more information you may need to process our request.

Sincerely,

Cynthia Button

Paramedic/Director of Service of Aero Methow Rescue Service

Chair of NCECC MIH Workgroup
