

North Central Accountable Community of Health

Early Warning System Workgroup FIMC Advisory Committee – North Central Accountable Community of Health

MEETING NOTES

10:00 – 11:30 AM April 28th, 2017

Attendance: Curt Lutz, Christine Mickelson, Krista Concannon, Keith Hanson, Christal Eshelman, John Schapman, Linda Parlette, Isabel Jones

Via Phone: Dan Duran, Tenzin Denison, Alice Lind, Ruth Bush, Jessica Young, Allen Fischer, Noah Stewart

Notes: Teresa Davis

Goal of Workgroup:

Develop an Early Warning System that allows a feedback loop and triage process to identify and resolve system issues as they arise in the short term.

Presented Early Warning System Matrix that Isabel created. What is missing?

- Juvenile justice system
- 1077 orders from courts
- Track DMHP – dispatched through crisis line calls
- DSHS may already be tracking the 1077 (Jessica will follow up on that)

Reviewed jail intake forms for all three jails.

There were a lot of similar questions that all three jails use. Discussed different ways that we could extract information from the jails to establish some metrics.

Possible contacts that would have some additional reporting:

- WSSPCA – Corrections options services group
- NIBR – National Incident Based Reporting
- Spillman – They can't pull data at the jail level, but they can request reports from Spillman.
- Crystal Reporting – Noah will look into Crystal reporting after we identify fields needed.

Discussion on the Early Warning System Matrix:

At some point this group will need to decide if it will be worth tracking the Eastern Census because there are so many factors that can affect the measures. In Spokane they have been fined so much for overages that their Non-Medicaid funding has been cut significantly. Having more non-state beds in our regions will help us avoid overages.

Next Steps:

- Krista will compare the jail intake forms to find common questions. She will bring back to the next meeting so we can decide what measures to use.
- Need to get some SUD providers to give input at the table.

Next Meeting:

Wednesday, May 17th at 3:30 PM at the Chelan County Health District
