- Old Business
 - Subcommittee Reports
 - #1 Regional Survey- Paige reported. Overall plan is to develop regional survey transportation/HHS needs. First steps will be to understand current and identify other resources available before creating a new survey. Resources reviewed are available on the docvault. Next Steps: Identifying questions, survey format and potential events for community survey distribution/feedback. On track for survey to open in March. Deb/Alicia reported on the March Community Resource event planned in Wenatchee. This event has potential to be scaled to reach multiple communities and engaging our target populations (Medicaid/underserved). For more information and to be a part of the event, please contact [Alicia McCrae](#) or [Jolyn Hull](#)
 - #2 Strategic Planning
 - Linette reported per written report from Maggie
 - Education is going to be important moving forward. Faith based communities are an untapped resource. Deb reported NCACH has new staff working on communication and CHI liaison. It will be important to loop this staff person into the work as a direct connection.
- New Business

- Grant County Mobility Summit – Rosenda Henley
 - Had 28 participants and received great feedback. As a result, agencies are looking at rearranging a route in Adams and Grant counties based on feedback from the summit. Planning follow up meeting in January.
- Any new discussion
 - Renee HSPP for Quadco will schedule a Mobility Summit in Grand Coulee/Omak/Colville Tribe. January 11th at Senior Center in Grand Coulee. Also will be scheduling in other communities in the Quadco service area communities each week through February.
 - Linette-LINK Transit is now holding off on the sales tax initiative for increasing services due to short turn around before election. The board prefers to allow more time for a citizen’s committee to convene.
 - Greg-Will provide Rosenda with new transportation director at Colville tribes.
- People for People tour & talk - Rosenda Henley-due to low onsite meeting attendance, tour and talk is on hold until next scheduled meeting in Grant County.
- Next meeting.
 - January – subcommittee meetings-Group leaders, please send reports to facilitators for posting on docvault.
 - February – Cathy-EVCS has offered to host, weather permitting. (Otherwise we can have a conference call if weather is not safe for regional travel)
