- Communication link between local communities and NCACH Governing Board
- Local stakeholder advisors to regional CHNA/CHIP work
- Local action planning in conjunction with Public Health Districts

NCACH Proposed Governance Structure

August 2015

NCACH Governing Board

Primary decision making body of the North Central Accountable Community of Health.

15 seat board

NCACH Leadership Council

The purpose of the Regional Council is to provide to the Governing Board input from a broad range of stakeholders on matters that affect the health of people in the region.

Backbone Administrative Support Functions – Organization TBD by end 2015

Spectrum of Stakeholder Engagement*

* Uncommon Solutions

Cooperation

Collaborative

Formal Public/Private Partnership

County CHI

Definition:

A collection of diverse stakeholders that identify and shape joint efforts. This level of engagement can provide a mechanism to organize, plan, and implement common goals.

Goals: Common goals are identified with stakeholder input.

Governance: Does not include stakeholder governance authority.

Leadership Council

Definition:

A formal assembly of stakeholders with unique knowledge and skills. This level of engagement allows for recommendations and guidance regarding direction, implementation and resourcing of shared goals.

Goals: Common goals and priorities are identified and agreed by stakeholders.

Governance: Can include formal project governance, including written agreements that detail project charter and any bylaws.

NCACH

Definition:

A venture that is jointly controlled, funded and operated by public, private and community partners. This level of engagement assumes shared risks and rewards including leadership, accountability, and combined resources.

Goals: Vision, purpose and priorities are mutually set by the partnership.

Governance: Does include formal authority and structure to govern the project. Partners develop and adhere to written agreements and by laws.
