

The Health Resource Fair that Community Choice facilitated was at the Community Center in Wenatchee, Washington. The mobile food bank was present and feed over 800 people. The Resource Fair had over 200 people that attended. There were over 50 organizations from the region that engaged in conversation about their resources for the individual and community. My role at the Resource Fair was to greet each person attending, let them know more about the fair, direct them to specific organizations and keep tallie of the attendees.

At the Resource Fair, the Mobility Council was present. The Mobility Council was conducting a survey, which attendees filled out. I put the questions into Survey Monkey, so that the survey could be conducted. I am still working with the Mobility Council on the survey. The data from the survey will help assess the transportation needs of the community, transform the transportation of the region and plan changes to the transportation services.
